WSDOT Construction Activity & Possible Delays/July 18-July 28, 2002

This update is also available by calling 1-800-695-7623, extension 511.

US 2/Deer Road to Westwood Road (MP 296.26-306.18)- Work continues on this resurfacing project. Night paving is scheduled to begin on Friday, July 19. Motorists should be aware of possible lane restrictions, flaggers, slow-traffic, and construction personnel in and adjacent to the roadway. At least one access to all homes and businesses in the project area will be maintained. Motorists in the project vicinity may listen to 530 AM for additional information.

HIGH IMPACT!! SR 20/Colville High School to Narcisse Road (MP 355.94-363.61)- Crews are placing crushed rock on the roadway; motorists are advised to travel at slow speeds and be aware of possible flying rock material. Motorists can expect slow traffic and should be alert for flaggers and other construction personnel. Crews are also performing drainage work and other minor items in the project vicinity.

SR 23/Front Street in St. John (MP 14)- Work on this improvement project on Front St. continues. Motorists can expect some sections of unpaved roadway within the work zone. A 24-hour detour is in place for SR 23 traffic. This is a City of St. John project.

SR 23/I-90 to Harding (MP 43-53)- Chip seal work may be underway during some portion of this week. While work is underway, motorists can expect loose gravel and fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

SR 23/SR 195 to the Lincoln County Line (MP 0.00-39)- Chip seal work may be underway during some portion of this week. While work is underway, motorists can expect loose gravel and fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

SR 26/SR 261 to Hooper (MP 83-102)- Chip seal and fog seal work may be underway during some portion of this week. While work is underway, motorists can expect loose gravel and fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

I-90/Four Lakes Area (MP 270)- Crews will be performing bridge deck repairs to this section of roadway during this week. During the repairs, eastbound I-90 motorists should be aware of possible lane restrictions, minor delays, and construction personnel in and adjacent to the roadway. All westbound I-90 lanes will be open.

Weekly Update

July 18, 2002

I-90/Altamont Street Vicinity (MP 283)- Crews will be performing bridge deck repairs to this section of roadway later this week. During the repairs, westbound I-90 motorists should be aware of possible lane restrictions, minor delays, and construction personnel in and adjacent to the roadway. Eastbound I-90 traffic in this location will not be affected.

HIGH IMPACT!! I-90/Harvard Road Interchange (MP 296)- Motorists can expect narrow shoulders and various lane restrictions throughout the week on westbound and eastbound I-90 due to shoulder paving. In addition, Harvard Road driving surface is gravel. Motorists can expect lane restrictions and delays on Harvard Road, and are advised to travel at slow speeds to avoid flying rock material and watch for bumps on the roadway.

HIGH IMPACT!! SR 127/Church Hill Road to Dusty (MP 18-27.05)-Crews are performing minor work. Motorists should be aware of possible minor lane restriction, short delays, and construction personnel in and adjacent to the roadway. On Friday, August 2, crews are expected to begin major roadway paving. At that time, motorists can expect 24-hour traffic control directed by flaggers and/or pilot cars and possible delays of 15-20 minutes.

US 195/Meadowlane Road (MP 92.28)- Work continues on the construction of a right-hand turn lane at this location. Motorists can expect closure of roadway shoulders and possible minor lane closures of the outside lane. The project is expected to be completed by the end of the month. Motorists should be alert for construction personnel on and adjacent to the roadway.

US 195/Smythe Road to I-90 (MP 83-96)- WSDOT crews are performing concrete pavement bump grinding. Work will occur at various, multiple locations on the northbound lanes. This work requires lane restrictions, however one lane will be open at all times. Motorists should expect minor delays on US 195 during these repairs.

SR 211/Vicinity of Four Lanes to SR 20 (MP .17-15)- Fog seal work may be underway during some portion of this week. While work is underway, motorists can expect fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

SR 260/Kahlotus to Washtucna (MP 24-39)- Fog seal work may be underway during some portion of this week. While work is underway, motorists can expect fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

SR 263/Snake River to Kahlotus (MP 0.00-9)- Fog seal work may be underway during some portion of this week. While work is underway, motorists can expect fresh oil on the roadway. Expect possible slow, single-lane traffic controlled by flaggers or pilot cars. This work requires dry weather.

Weekly Update

July 18, 2002

HIGH IMPACT!! SR 270/Pullman City Limits to Spring Street (MP 0.00-2.82)- Work continues on this paving project through downtown Pullman on Grand Avenue, Paradise Street, and Main Street. Motorists can expect lane restrictions and traffic directed by flaggers. Motorists can expect minor parking changes/restrictions in downtown Pullman, as well as possible wide load restrictions for the project vicinity. Motorists can expect possible lane restrictions throughout the project limits for the duration of the project. All businesses are open.

HIGH IMPACT!! SR 272 (MP 16) & SR 27 (MP 15)/Near City of Palouse- Pavement repair work will be performed near the west end of the City of Palouse during next week. Motorists can expect single lane traffic directed by flaggers and minimal delays.

HIGH IMPACT!! SR 290-Trent Avenue/Spokane River Bridge (MP 0.4-0.6)- Work is under way on this bridge replacement project between downtown and Hamilton Street. Trent Ave. is closed to through traffic between Riverpoint Blvd. and Cincinnati Street. Detours are fully signed. Access to all businesses on Trent is available. This is a long-term closure.

HIGH IMPACT!! SR 290-Trent Avenue/Fancher Road to Sullivan Road (MP 4.3-10.3)- Work continues; crews are performing paving and striping work. Possible night paving will take place throughout the week (weather dependant). Motorists can expect traffic directed by flaggers, lane restrictions, and delays throughout the entire project limits.

HIGH IMPACT!! SR 290/Sullivan Road to the Idaho State Line (MP 10.35-18.38)- Work on this paving project continues. Throughout the project, crews are working on the roadway 24-hours daily. Night paving is expected to take place during the week (weather dependant). One-way piloted traffic control is in place. Motorists can expect lane restrictions and delays throughout the entire project limits.

HIGH IMPACT!! US 395/Arden to Colville (MP 219-229)- Work on this pavement overlay project continues. Paving and pavement repairs will take place at various locations throughout the entire project. One-way piloted traffic control is in place. Motorists can expect up to 20 minute delays from 6 a.m. to 8 p.m. Monday thru Friday. Motorists should be alert for flaggers and other construction personnel in the project vicinity.

HIGH IMPACT!! US 395/Colville Main Street (MP 228-229)- Extensive work continues in downtown Colville. Main Street continues to be reduced to one lane in each direction with possible slow traffic; a detour is in place at the north end of Colville for SR 395 traffic. Motorists can expect some sections of gravel roadway within the work zone. All businesses are open. This is a City of Colville project.

U.S. 395-North Spokane Corridor/Hawthorne to U.S. 2- Crews are continuing installation of fencing along the new section of freeway. No traffic delays are expected.
